

My name is AARIN DANG. I am a 9 year old, proud Australian and a resident of Victoria.

During the lockdown, I wrote a poem for you, our Prime Minister, Mr Scott Morrison.

You have inspired me in so many ways and my poem is a true reflection of my understanding of you as a person and as a leader.

The purpose of this poem is to let you know how amazing you are and how you inspire young kids to do whatever they can for their country.

On 17th April, 2020 I made your portrait using Play Doh on our Dining table.

Dear Mr Scott Morrison,

I often think and wonder,
How can you do all the amazing things you do?
I often think I wonder,
What will it be like if I was ever in your shoes?

I have been watching you a lot on news during these testing times of Covid .
I realised how hard certain tasks were.
But whenever I heard you speak,
I realised you were so meant to do this.

No matter how strong is the storm,
you are determined to sail through.
No matter how dusty it is,
you will find a way through!

Before yourself, you think for the country.
Before yourself, you think for the people.
Before yourself, you worry about others.
Before yourself before yourself!

How do you continue to give...
without hardly any takes.
How do you continue to rise..
Without hardly any sunshine.

On your face,
there is never a unsure expression.
How do you manage to keep it all within you?
And yet deliver with so much precision.

In your eyes, I see Truth!
In your words I want to believe.
In your presence, my eyes are hooked,
In your belief, I vest my trust.

You make us believe to raise our voice.
And not think we don't have a option.
You encourage us to talk and inquire,
With all our heart and true desire.

When I see you, I see a lot more!
The stresses and doubts buried deep inside you.
Your eyes have a story to tell,
But your smile hides away all your battles.

Amidst all the chaos, you put aside your sorrows and pain.
Amidst all the commotion, you put aside your worries.
You don't let tears of fears ,roll down from your eyes,
You make us believe that one day everything will be fine!

I am only 9 and now beginning to learn about governments.
I am only 9 and now beginning to understand people
Dear Prime Minister, I want you to know..
I am lucky to have started my journey of learning,
by following a great leader like you.

When you speak, I listen.
When you smile, I smile.
When you are worried, I am worried.
When you are calm,so am I.

Your truth, knowledge, discipline and belief,
is inspiring us heaps!
Your vision for your country and people is very reassuring.
It is constructive, favourable and extremely encouraging.

Keep doing the amazing things you do.
We have faith in everything you do!
Look back if you need anything,
and we will be there for you to help you with everything!

Thank you for being a role model.
Thank you for being so kind.
Thank you for making us believe,
that prime ministers are wonderful in so many ways and have the most brilliant minds!

Best Regards
Aarin Dang
